Empower African Communities

## What We Do

### Clean water

H2H is dedicated to helping African communities create wells that produce clean water. The water sources in Africa are contaminated and sometimes very far away. The cost of a clean water well is about \$6,000.00 US dollars. We raise funds and help with the process of creating new wells.

### Sustainable farming

There is a great a need for sustainable food sources for African communities. H2H has rented land for gardens and provides seeds, hand tools and training in agriculture. We have also purchased protein sources like chickens, goats, quail and lamb to raise and breed for future generations.

### Basic Needs

H2H raises funds to provide children and widows in Africa with ongoing daily needs like clothing, shoes, blankets, bedding, school supplies, balls, books, personal hygiene products, medical transportation, medicine, eyeglasses, food and more. H2H has several outreach programs planned for the future that are intended to improve the lives of the children and community members in East Africa.

## Who We Help

### Uganda & Kenya

H2H is dedicated to helping the children and widows of Maliki Village in Kenya, East Africa. Together with partner, Samson Mabonga, we support projects like farming, education and basic needs supplies. H2H also works in Kampala, Uganda with Directors Franklyn and Sarah Kasozi. This area has many children in great need of counseling, education and basic supplies.

### The Children

The children of Africa are our true hearts mission. In Kenya and Uganda many children live in severe poverty and are at high risk for disease, abandonment and sexual or physical abuse. Many children in Africa do not have the opportunity to go to school. Some schools consist of children using sticks to draw letters and numbers in the dirt. H2H wants to help these children go to school, by providing them with clothing, and supplies.

### The Community

Strengthening the community by educating leaders, providing supplies, teaching life-skills and spreading the word of God empowers the people and improves the lives of children in African communities.
